RESPONSE TO RESTRICTION REQUIREMENT

Dear Madam:

In response to the Restriction Requirement mailed August 22, 2003 for the above-referenced application, Applicants hereby elect Group 1, claims 1-5, with traverse.

Applicants acknowledge that Groups 3 and 4 of claim 10, which is drawn to a method of differentiating primary uterine serous papillary carcinoma from serous papillary ovarian tumors comprising measuring expression of HER-2/neu mRNA and protein, respectively, belong to different classes with Group 1 of claims 1-5. However, Group 2 of claims 1, 6-9, and 11-18, which are drawn to a method of treating uterine serous papillary carcinoma comprising

A 7
OM
9/16/02

administering HER-2/neu antibody and interleukin-2, is very similar to the subject matter of Group 1 as both relate to treating uterine serous papillary carcinoma by administering HER-2/neu antibody, either alone or with combination.

Therefore, a search of the subject matter of Group 2 would not be an undue burden on the Examiner. A search for prior art disclosing the treatment of uterine serous papillary carcinoma by administering HER-2/neu antibody would necessarily reveal any prior art relating to administering the HER-2/neu antibody in combination interleukin-2 or other. Applicants respectfully submit that no undue burden would impose on the Examiner. In view of the above arguments, Applicants respectfully request that Group 2, claims 1, 6-9, 11-18, be joined with Group 1, claims 1-5, for the purpose of examination.
